Final Piece Plan

On these pages I have planned out exactly what I will do on my final piece. I can use this as a reference in my exam, as I will be under time pressure; having a detailed plan will help me to calmly focus on the task at hand.

I have chosen these two photographs to be part of my final piece as I feel they best show the themes of this topic. The serene order of the model's open expression versus the chaotic disorder of the swirling nebulae. I will print them onto matt photo paper. When they have printed I will centre techniques learned in my Mandy Robertson Cubism and circles studies to enhance the images. I have marked on in silver where these attractions will be.
